Christina-

I will talk with David Cooper next week and call you as soon as I hear from him. Just to confirm what you'd like to discuss, my understanding is that you would like to discuss TASC. Your correspondence below references correspondence around formation of a CAG.

Thanks,  
 Nicole

 Subject: Re: Fw: TASC ORequest - renewed

Thank you Nicole, I look forward to speaking with you. I've been looking at the administrative file that I just received from DTSC which includes this document:

[http://cleanuprocketdyne.org/cleanuprocketdyne.org/Community\\_Advisory\\_Group/Entries/2010/6/24\\_CAG\\_Denial\\_Administrative\\_file\\_received\\_files/reqadminNOTACCEPTcagdocID34-37.pdf](http://cleanuprocketdyne.org/cleanuprocketdyne.org/Community_Advisory_Group/Entries/2010/6/24_CAG_Denial_Administrative_file_received_files/reqadminNOTACCEPTcagdocID34-37.pdf)

and now, we have WHNC's Bonnie Klea and key accuser slandering me as the person chosen to "modify the workgroup"

This is especially insulting considering the statements made by Ms. Klea about me in those meetings, where I was not given a chance to respond, but apparently her statements are being accepted and my character is being damaged as a result.

For EPA to now refuse to hear three separate requests because someone who lives hundreds of miles away says so. What happened to the concept of the local stakeholder where the soil impacts directly result in potential impacts to us, not to people who live hundreds of miles away.

Let me know when we can schedule this so that others may join the conversation.

Thanks again.  
 Christina

Quoting Moutoux Nicole@epamail.epa.gov:

Hi Christina-

Your e-mail below was forwarded to me in Craig's absence. I have been out of the loop on the recent TASC correspondence so I will follow up with David Cooper. I'm not sure if we'll be able to resolve this while Craig is out, but I'll call you early next week.

Thanks,  
 Nicole

 SUBJECT: Fwd: TASC Request - renewed

Still haven't heard from you other than a generic, "we are not accepting applications at this time" response to my written TASC request despite the discussion to have a scheduled phone conversation about this (below) that never happened. I also received no response to fact that I was pressured to withdraw my original request as shown by the documents I sent you related to EPA assuring Mr. Hirsch that requests from our community "will never go anywhere".

I am also aware of two other people who have made this request to EPA, so I must ask the reasoning behind ignoring multiple requests from this community in favor of one person who doesn't live in the community? I do not accept this notion that we should just sit back and wait as Mr. Hirsch who lives hundreds of miles away, makes decisions for our community. I also do not accept Mr. Hirsch as my representative or that of our community and do not feel his expertise and efforts are consistent with the objective of clean-up, as his recent efforts have been to stop and delay work from moving forward.

For this reason, I would like to schedule this conversation (as offered below) to be via webex phone conference so that the others can be included in that conversation. Using webex allows for both conference only, as well as with the online meeting features and we believe this discussion needs to be documented. Please let me know what date and time next week you will be available and I will set up. Thank you and I look forward to having this conversation with you at your earliest convenience. Since I am leaving for Europe on the 5th of July, I request that this call be scheduled for a time prior to my leaving.

Thanks again,

Christina

I actually have a meeting with Gerard of DTSC at 11, which just got scheduled today. Perhaps we can push it a bit earlier, or after 12?  
Thanks  
Christina

Christina -

When is a good time for me to call you? We can discuss TASC (per your email below) and your email about getting everyone's comments on the HSA 5C memo and Draft Water Testing SAP. I am free all day today, anytime tomorrow except 10am to noon and any time on Friday.

Thanks,

Craig

Subject: TASC Request - renewed

-----

Hi Craig,  
Thanks for the meeting last night. I found it very informative. It seems to me that the community is really in need of independent review

and analysis to help them understand what the issues are moving forward. With the very complicated statistical issues related to the

data as it comes in for the survey and background studies, it will be

even more important to have independent expertise to help provide analysis and summary review to the community.

I hereby renew my request for TASC Program Assistance for the Santa Susana Field Laboratory investigation and clean-up work being done under CERCLA.

I was pressured to withdraw my request last year and in reviewing this very troubling document [attached] where it appears that EPA was also pressured to not provide this program, I feel that renewal my request

for the TASC program is needed now. I appreciate any assistance you can offer in order to begin the TASC process once again so that we may

utilize these tools to better understand the complex data validation,

statistical analysis of the very important sampling program led by EPA

so interpretation of the data can be understood by the community.

Please let me know when we can discuss this in more detail. I look forward to hearing from you.

Sincerely,  
Christina Walsh
